

# Resources To Help Get You Unstuck

Scripture is just as essential today as it was millennia ago. But it is your job - the teacher, elder, preacher, blogger, etc. - to teach it in a relevant, practical way. And in our iPhone-packed, social media campaign-filled, 3-second attention span-crippled world, making our message visually appealing is no longer a mere luxury. With truth on your side, why not go the extra step by making your message really 'pop'?

Say goodbye to Microsoft clipart. Say hello to some of my favorite resources that have helped me as I assemble PowerPoint presentations, design advertisements and church promo material, build websites, and write blog posts:

## Presentation Slides & Artwork
